

"Saved Her Life." GEN. ALGER DESIGNS

Inform the President He Is Ready to Quit the Cabinet.

WILL RETIRE AUGUST 1

The Resignation Came in the Nature of a Surprise to His Colleagues. Positively Declines to Give Any Reason For Leaving Office—His Successor Not Yet Made Known.

Washington, July 20.—Secretary Alger yesterday tendered to the president his resignation of the war portfolio. The resignation will become effective August 1, though it was tendered "at the pleasure of the president."

Gossip has begun already as to his successor, but is entirely speculative, for, notwithstanding the reports that Mr. Alger would not long continue at the head of the war department, his actual resignation was unexpected. That it would come by the end of the year was generally believed, but so little was it expected at this time that some of the cabinet officers, when the news first became public, were inclined to regard the announcement as premature, the announcement that it was not.

At his residence the secretary was equally noncommittal, and positively declined to assign any reason for the action he had taken. His plans for the future have already been defined. Mr. Meiklejohn, the assistant secretary of war, is at present supposed to be in Wisconsin, whether he went two weeks ago to make a personal inspection of the Fox river improvements. He has been notified of what has happened and is expected to return to Washington to assume charge of the war department until such time as the president shall name a permanent secretary. Probably that will be by the end of the present month and by Aug. 1 Secretary Alger will be at liberty to lay down his staff.

ALGER'S SUCCESSOR

Close Inquiry Fails to Elicit the President's Intention.

Washington, July 20.—The closest inquiry fails to elicit any information as to the intentions of the president respecting the appointment of a successor to Mr. Alger as secretary of war. Names are mentioned, but they are only those which have already been suggested with more or less plausibility in the press, without securing either confirmation or denial from any well informed person.

Among the names which have been mentioned from time to time when talk of Secretary Alger's forthcoming resignation has been rife, have been those of General Horace Porter of New York, now ambassador to France; Governor Roosevelt of New York, General Harrison Gray Otis and Assistant Secretary Meiklejohn.

The news of the resignation caused a buzz of comment last evening in all public places, but at the white house there was no evidence that any unusual event had occurred. There were no reports of importance during the early part of the evening, but about 9 o'clock Secretary Hay, accompanied by Senator Fairbanks of Indiana came over for a talk on the subject. There was no evidence of a cabinet conference, and no suggestion of anything in that line. There was nothing to give out for publication it was said.

Secretary Alger's departure from the cabinet will leave in it only three of those members who entered it at the beginning of the administration—Messrs. Gage, Long and Wilson. The number of changes that have occurred in the two and one-half years of its life has been very unusual. Six cabinet officers in all have resigned their portfolios, either to retire to private life or to accept other positions of honor and trust at the hands of the president. These include Secretaries of State Sherman and Day, Attorney General McKenna, Postmaster General Gary and Secretary Bliss.

INDUCEMENTS

Offered by the Government to Expedite Recruiting.

Washington, July 20.—The war department is offering extra inducements to expedite the recruitment of the 10 volunteer regiments. Nearly all the commissions having been issued, many of the disappointed applicants have been advised to enter the ranks, as in that way it may be possible for them to secure commissions. General Corbin says that the policy of the administration will be to fill all vacancies which may occur among commissioned officers from the ranks. A number of applicants for commissions have enlisted as privates in the different regiments, and have been appointed noncommissioned officers wherever possible and consequently are next in line of promotion to commissioned ranks in the event of a vacancy. Another method of securing recruits is to offer commissions to men otherwise qualified who will undertake to furnish in each case not less than 40 men who can pass muster as soldiers and will enlist for service in the Philippines. There have been several cases of this kind during the past week. A former officer of the Texas volunteer infantry recently told General Corbin that he would guarantee to recruit 200 good men from Texas, provided he was assured of a commission. General Corbin promised him a second lieutenantcy if he would recruit even 40 men for the volunteer army.

Fairbanks Reports to Hay. Washington, July 20.—Senator Fairbanks, chairman of the joint American-Canadian commission, gave to Secretary Hay yesterday his conclusions of his Alaskan trip. The senator still expressed confidence that some arrangement might be made which would result in a resumption of negotiations on the Alaskan boundary question.

Military Surgeons.

Washington, July 20.—Colonel Charles H. Alden and Majors G. H. Torney and J. L. Powell of the medical department of the army, have been detailed to represent the department at the eighth annual meeting of the association of United States military surgeons at Kansas City, Sept. 27-29.

Casualties to the Second Oregon.

Washington, July 20.—A statement of the war department shows that of 56 officers and 1,816 enlisted men of the Second Oregon regiment 49 were killed in battle or died of disease during the campaign in the Philippines, a percentage of 3.6. Only two men deserted.

National Treasury Statement.

Washington, July 20.—The statement of the condition of the treasury shows: Available cash balance, \$279,513,252; gold reserve, \$245,021,258.

Drop in the Price of Flour.

Chicago, July 20.—The price of flour dropped 20 cents a barrel yesterday and is now cheaper than for some time. The price to jobbers fell from \$4.20 to \$4.00, according to the statements of dealers, there is likelihood of an upturn. The drop is said to be due to the steady decrease in the price of wheat.

RIOTS IN NEW YORK

Sympathizers in the Great Streetcar Strike Make Trouble.

WOMEN PERFECT FURIES

Second Avenue Cars Are Stopped From the Sidewalks and Households—Police Tossed Hither and Thither. Windows in Cars Broken and Many Passengers Injured.

New York, July 20.—If the strikers wanted to make plenty of work for the police and at the same time get into a strike by which they could depend on popular sympathy, they made a wise selection in taking the Second Avenue line for the principal fight of the strike.

Several times yesterday afternoon the police were called upon to quell riots in Second Avenue, but none was of serious import. The real trouble did not begin until thousands of working people who live along that great thoroughfare came home from work. Last night Second Avenue, from Tenth street to the stables at Ninety-sixth street, and even as far as One Hundred and Tenth street, was filled, and on both walks was a dense mass of people, all eager for trouble.

Captain Donohue had sent out a squad of men to keep people out of the middle of the street, so no tampering with the strike might occur. But his men were like so many chips on a river when the tide is strong, and they were tossed hither and thither. They used their clubs with all their power and the only result was to anger the crowd so that little discrimination was shown between the police and the car men when bricks were thrown.

A great crowd gathered between Forty-second and Forty-fifth streets and attempted to overthrow the cars that came along, but 30 minutes apart. Police Officer Owen Conivan, who was on a car bound south, was hit on the head with a brick and knocked to the pavement. His left eye was almost knocked out. Louis Minkus, a 9-year-old boy, got in front of a policeman's club, and, in the excitement, the bluecoat made no distinction. The boy was knocked over and was carried home with a bad scalp wound. Mike Sheridan, a strike sympathizer, was taken home with a fractured skull. A sergeant and 40 reserves dispersed the crowd, making a number of arrests.

Another crowd got together in a minute or two, and when a car bound down came along it met a perfect shower of bricks, stones and other missiles, thrown from the street, the windows of the flats and the roof. Women were perfect furies. While a car was passing Seventy-second street, with Policeman Gallagher as an escort, a score or more of the mob tried to board it to take off the conductor and motorman. Gallagher got off and, drawing two revolvers, walked ahead of the car, clearing the track, the crowd retreating sulkily.

The cars coming into the stables from downtown looked as if they had run the gauntlet of Balaklava. Windows were broken and sides dented in and more than one motorman left his post with the statement that he had all he wanted. One car had 111 fads and transfers rung up at Fourteenth street and had only the motorman, conductor and police escort and two men aboard when it reached Eighty-fifth street. Several passengers had been hit and wounded and left the car. The plaza, near St. Mark's church, Second Avenue, near Tenth street, was thronged with a jeering crowd of 2,000 or more. Police Captain Diamond had a large squad of men there and found it almost impossible to keep the crowd moving.

A great many men were injured along the line. Policeman Olson was thrown from his horse during a fight near Ninety-fourth street. The horse was struck on the head with a stone and so frightened that it reared, throwing its rider heavily. The policeman's leg was broken and he received internal injuries. A motorman was struck on the chest with a brick near the up-town car stables and seriously hurt. Several of the passengers of one of the cars going up town, near Tenth street, received nasty scalp wounds from stones thrown by the mob.

The Brooklyn police, on duty along upper Second Avenue, declared the riot was infinitely worse than any that had taken place in Brooklyn. The crowds were very much greater and more anxious for a fight.

DEMOCRATIC

National Committee May Adopt New Rules as to Vacancies.

Chicago, July 20.—It is probable that a new rule will be adopted today by the national Democratic committee, which is in session at the Sherman House, providing that whenever a vacancy occurs in the national committee the state committee shall elect a member of the national committee to fill such vacancy.

Another rule which is under consideration gives the national committee the right to judge of the qualifications of its own members.

Still another rule is being talked of which would force ex-Governor Altgeld out of his position as a member of "the auxiliary committee," which was originally composed of Mr. Altgeld, Senators Jones, Toller and Allen, and William J. Stone. This rule will provide that all committees, auxiliaries and otherwise of the national committee shall be made up only of members of the big committee.

As Mr. Altgeld is not a member of the national committee the adoption of this rule would prevent his serving on any auxiliary committee.

OUR ALMANAC

Time of Rising and Setting of the Sun and Moon—Indications. INDIANAPOLIS, July 20.

SUN. MOON.
Rises 4:49 | Sets 7:21 | Sets 1:58 a. m.
Indiana and Illinois—Threatening, with probable showers in northern portion; showers tomorrow.

75,000 MEN

Necessary to Take and Hold the Philippines—Hoosier Officer's Estimate.

Anderson, Ind., July 20.—Captain W. R. Myers has received a letter from his nephew, First Lieutenant Percy Kessler of the Third artillery, in the Philippines. The lieutenant expresses the opinion that the United States should have 75,000 troops in the Philippines. He writes that the American army only has control of Manila, and that the Filipinos are tolerably well controlling the only country. They have plenty of guns and ammunition, says Kessler, and will continue to have, for the coast line appears too long for the Americans to patrol and keep out supplies. Kessler is generally conservative in expression, and his letter has created much talk.

NEARLY NUDE

Thresher's Unpleasant Experience While Repairing a Blower.

Moscow, Ind., July 20.—Mahlon Miller, near here, owner of a thrashing machine, yesterday crawled into the blower attached to the straw stacker to make some repairs. The machine started while Miller was adjusting the blower. His cries for help were unheard, and the pressure was so strong that soon his clothing began coming out on the straw stack piece by piece. The machine was hurriedly shut down, and Miller was removed from the blower almost nude and nearly suffocated.

MRS. CULLOP

Appointed Honorary Commissioner For Indiana to Paris Exposition.

Indianapolis, July 20.—Governor Mount has issued a commission to Mrs. Artie Goodwin Cullop of Vincennes, as an honorary commissioner from Indiana to represent the women of this state at the International exposition at Paris in 1900.

The appointee is an accomplished linguist, speaks French fluently and has spent much of her time abroad. Her husband is Hon. William A. Cullop, well known throughout the state.

Will Manufacture Yellow Ochre.

Terre Haute, Ind., July 20.—A company composed of Indianapolis and local capitalists have leased 160 acres of land three miles from this city and will commence the manufacture of yellow ochre. A thick vein of the clay is found at several points in this country, and the corporation announces its factory will be built immediately and the output will be 30 carloads a day.

Flintglass Workers.

Muncie, Ind., July 20.—The Flintglass Workers' international convention yesterday acted on the report made by the prescription ware committee, ratifying the report. The document presented recommends the 10% and 10% per cent increase agreed on by a special meeting of the lodge held in Pittsburgh some weeks since.

Fatally Shot.

Richmond, Ind., July 20.—B. F. Simmons, a liverman, shot John Webb, a young railroad worker, last night. The shooting took place in the former's stable, where Webb had gone and engaged in a quarrel with Simmons. It is not thought Webb can live.

Antislavery League.

Lake Bluff, Ill., July 20.—The second annual convention of the superintendents of the American Antislavery league is in session here. The convention will continue 10 days. Thirty states and territories are represented, delegates being present from all parts of the union. Thirty-three states are now under organization.

Transvaal Franchise Law.

Pretoria, July 20.—The Volksraad has adopted further articles of the franchise law enabling sons of outsiders to become naturalized at the age of 16, and to obtain the franchise five years thereafter.

MARKET REPORT.

ROYAL BAKING POWDER
ABSOLUTELY PURE
Makes the food more delicious and wholesome
ROYAL BAKING POWDER CO., NEW YORK.

EMPRESS OF CHINA

Has Issued a Decree Recognizing the Roman Catholics in Her Empire.

Tacoma, Wash., July 20.—The steamship Olympia brings news that the empress has issued a decree recognizing the Roman Catholic religion throughout China and has accorded an official grade to all Catholic missionaries who thus rank as mandarins. The French protectorate of Catholics in China is also recognized with all its privileges. The recognition was secured as a result of strong French demands made following the murder of French missionaries, asking greater protection than they have had heretofore.

Anti-Christian riots in Fokien province have caused all missionaries to flee to Foo Chow. Seven Chinese Christians were murdered during these riots. It was reported that Rev. Philip, his wife and other English missionaries were murdered, but the latest dispatches announce their arrival at Foo Chow. Much mission property was destroyed. The British gunboat Albatross has arrived at Foo Chow.

Native papers report that Viceroy Lin, at Nanking, has received a secret edict from the empress dowager directing him to use armed forces to prevent the landing of troops of European powers in Yang-tse-Kiang valley. He is held responsible for successful resistance to English or other troops, and is authorized to hold taxes destined for the imperial exchequer to defray military expenses.

A dispatch from Chemulpo states that two captains of the Korean army and two others had been arrested for plotting to dethrone the emperor. Their object was to cause a revolution and secure a more enlightened monarch.

A terrible explosion occurred last month at Hokoku coal mine, Japan, in which 220 persons were killed. Over 170 bodies have been recovered. A naked lamp, carried into the mine, caused an explosion.

NO SOLDIERS

Will Be Sent to Clay County by Governor Bradley.

Frankfort, Ky., July 20.—Governor Bradley will not call a special session of the legislature, neither will he send state troops to Clay county under present conditions. He reached this conclusion last night. He thinks the legislature would not enact laws relating to the judiciary necessary to reach Clay county's situation, and he doubts if the military would do any good there. A well known mountain official, who was called on by the governor for an opinion as to what was the best measure to be resorted to for the restoration of order in Clay county, responded that he thought the whole thing could be settled by introducing a better grade of whisky into Manchester, to take the place of moonshine liquor, distilleries for which are on almost every farm.

Effects of Electrolisis.

Cleveland, July 20.—The city electrician has just completed an investigation to learn the effects of electrolisis on one street in this city. He finds 42 house water connections were eaten off during the past two years and in a few instances the big water mains are badly damaged. The electrolisis is due to the currents from the return wires of the electric railway on the street.

WIRE FLASHES

The third annual meeting of the Photo Engravers of America is being held at Put-In-Bay.

The striking ore handlers have returned to work at Cleveland. The men quit work through a misunderstanding. Archbishop Ireland is expected to sail for home on the Britannia in a week or 10 days. He is now visiting in Ireland.

The steamship Hattie E. Worcester of Gloucester, Mass., was wrecked on Sable Island. The fate of her crew of 14 men is unknown.

Michael O'Connor, aged 40, and Michael McGrath, aged 38, painters, were killed at Philadelphia by the breaking of a swinging scaffold.

The Choctaw officials, under arrest for executing William Golings, have been changed by United States Commissioner Haskell for want of jurisdiction.

Sank Ketchum, one of the train robbers wounded in the fight at Champeron N. M., was captured at a farmhouse about three miles from the scene of the fight. He had called for something to eat and medical assistance.

Try Holding Your Breath.

The modern quick moving elevator, when it sinks suddenly, gives many persons an unpleasant, qualmsome feeling. Into a well filled elevator in a big shopping store the other day stepped from one of the floors two women.

"Do you know," said one of them to the other, "that if you hold your breath going down in an elevator you don't have that unpleasant feeling; you don't feel it at all."

Of course nobody in the elevator listened intentionally, but nobody could help hearing what she said. Conversation instantly ceased, and everybody drew a long breath. The elevator shot downward in silence.

"Ground floor!" said the elevator man as he threw back the door, and the women streamed out from the car upon the floor, talking now gayly, and there was one at least who said that the plan was effective.—New York Sun.

A Mysterious Epidemic.

Stockholm, July 20.—A mysterious epidemic, which has been prevailing recently among the cattle on the Island of Gotthland, has spread to the human beings in the district, and a large number of patients have been admitted to the hospitals. Some of the cases are extremely difficult to diagnose. Cattle are dying by hundreds throughout the island as a result of the epidemic.

Low Mortality Record.

Santiago de Cuba, July 20.—Notwithstanding the fever epidemic only 16 deaths from all causes were reported last week. This is the lowest mortality record the city has ever known. No new cases of yellow fever have been reported in five days and nearly all patients in the hospitals are convalescent. The medical officers claim the danger is past.

Standard's Comment.

London, July 20.—The Standard in an editorial regarding Secretary Alger's resignation says: President McKinley's prompt acceptance of Mr. Alger's resignation is equivalent to an admission that the war department has been badly managed. It is significant the resignation followed so quickly on the Manila correspondents' round robin.

REV. T. C. WARNER DEAD

Was Past Chaplain-in-Chief of the Grand Army of the Republic.

Knoxville, Tenn., July 20.—Rev. Thomas C. Warner, D. D., past chaplain-in-chief of the Grand Army of the Republic, died last evening, aged 55 years. He was born in Medina county, O., and served two years in the Fourth Ohio volunteers. He has filled prominent Methodist pulpits in Ohio, Tennessee, California, Maryland and the District of Columbia.

Elks Broken to Harness.

There is a novelty at the stock yards that is attracting the attention of every one. It is a team of elks, standing nearly 16 hands high, broken to harness and as gentle and obedient as horses. They have been brought in from Montana and are awaiting a purchaser in one of the big pens in the yards. The elks have been domesticated, and their owner, G. S. Slayton has driven them about his ranch for several years.—Chicago Tribune.

Beautiful Indian Springs.

This property has lately been secured by the Southern Indiana Hotel Co. The old hotel has been demolished and a new one is now in course of erection. This will be a magnificent stone structure with all modern improvements; but will not be ready this season.

There has always been more or less excursion business and parties who go there to enjoy the water. The dance hall, spring house, summer pavilion, bowling alley and club house have been left standing and may be used by excursionists and picnic parties.

To accommodate this business the Southern Indiana Railway will put in rates for excursion parties and picnics; and has also arranged special Sunday train schedule, giving patrons along the entire length of the line an opportunity to spend the day at the Springs and return home the same evening.

H. H. ROSEMAN, G. P. & T. A.
